<https://www.al-mahdi-dental-supplies.com/documents-information/other-info/sensitive-content>

Due to the unprecedented oppression and brutality against civilians in modern history, Al-Mahdi Dental Supplies has decided to use their platform to express their strongest opposition to the ongoing injustice towards the Palestinian people. We kindly ask everyone to do what they can to help alleviate the suffering of the oppressed.

We are the UK's **First** distribution centre for **Dentinova**, one of Africa's and the Middle East's fastest growing dental laboratories!

WHY DENTINOVA?

Trusted by over 100 facilities in more than six countries for their high quality dental designs.

Dedicated team of more than 80 hand-picked, highly qualified consultants & experienced designers covering all dental subspecialties.

Providing dental designs, milling & 3D printing services 24/7/365.

Currently processing more than 15,000 designs each month while maintaining fast delivery time, less than 24 hours for designs, and 7 - 9 days for milling and 3d printing.

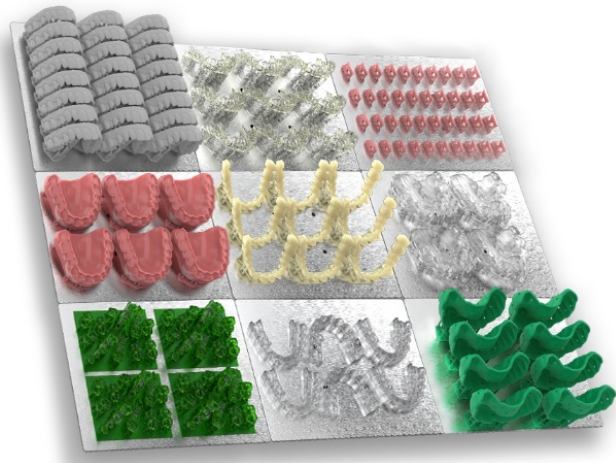

UNIZ - 3D PRINTER AND ACCESSORIES

Product Page: <https://www.al-mahdi-dental-supplies.com/webshop/uniz-3d-printer-and-accessories>

High-Accuracy 3D Printing Materials for Digital Dentistry

Bring production in-house or improve existing workflows with industry-leading UNIZ 3D printers. Our Dental Resins empower dental labs and practices to rapidly manufacture surgical guides, splints, fixed patterns and models, clear aligner models, and full dentures.

CLEAR ALIGNER ORTHODONTICS

<https://www.al-mahdi-dental-supplies.com/graphy-memoryaligner>

World's 1st Direct Printed Aligner Shape Memory Aligner

World's first patented technology **Shape Memory**

Advantages over conventional (thermoformed) aligners:

- * No attachments needed in most cases (more aesthetic)
- * Variable aligner thickness
- * More comfortable for the patient
- * You can even put the aligners in boiling water!

Distributed by:

AL-MAHDI
DENTAL SUPPLIES

Holyrood
DENTAL CARE

***First* suppliers of Direct Printed Aligners (DPA)
with shape memory in the UK!**

*Certified partners of **Graphy***

MEMORYALIGNER

Powered by Graphy

MEMORYALIGNER is the UK's first clear aligner brand using Graphy's shape memory material. Visit: www.shapememoryaligners.co.uk

The only aligner that can be cleaned in boiling water.

More Hygienic

OUR TREATMENT PACKAGES

All our orthodontic treatment planning is designed by Graphy certified specialist orthodontists.

Digital Setup/Treatment Planning: £150

1. Simple Case: £590 (No refinement fees)

Up to 10 aligners per arch

2. Moderate Case: £1090 (No refinement fees)

Up to 25 aligners per arch

3. Advanced Case: £1500 (No refinement fees)

More than 25 aligners per arch

(Or less than 25 aligners but still classified as "Advanced" due to its complexity)

50% Discount On the First Order!

- Basic biology of orthodontic tooth movement
- Orthodontic diagnosis
- Biomechanics of Aligner treatment
- Pros and cons of Aligners
- Case selection

ABOUT US

Al-Mahdi Dental Supplies is a UK based distributor. The company was founded by a dentist in Scotland in 2023 with a focus on providing high quality dental chairs at affordable prices and is now gradually increasing its range to include a variety of dental products such as diamond burs, endo files, digital x-rays, orthodontic products, dental laboratory services and more.

Equipment

Our aim is to reduce costs and increase availability of dental supplies for dentists in the UK and beyond. We achieve this by thoughtfully selecting our products and making them easily accessible in our [Webshop](#).

We take pride in being a supplier you can trust and find easy to communicate with.

Orthodontic & Restorative Laboratory

After receiving training at the [Graphy](#) headquarters in South Korea, Al-Mahdi Dental Supplies set up an orthodontic lab in Edinburgh city centre - in cooperation with [Holyrood Dental Care](#) - and became the first supplier of [Direct Printed Shape Memory Aligners](#) in the UK!

[MEMORYALIGNER](#) was announced in January 2025, the first clear aligner brand in the UK with shape memory, invented by Graphy (South Korea), manufactured in Scotland.

We are also the UK's first distribution centre for Dentinova, one of Africa's and the Middle East's fastest growing dental laboratories. Trusted by over 100 facilities in more than six countries. It has a dedicated team of more than 80 hand-picked, highly qualified consultants & experienced designers covering all dental subspecialties. Providing dental designs, milling & 3D printing services 24/7/365. Currently processing more than 15,000 designs each month while maintaining fast delivery time, less than 24 hours for designs, and 7 - 9 days for milling and 3d printing.

Send us your scans, we will deliver the lab work.
