GOOD NEWS OF HUGE SAVINGS FOR DENTAL CLINICS!

Are you thinking of buying a new dental chair or opening a new surgery? Or simply looking into ways to reduce costs? We could help you save over £10000.

Al-Mahdi Dental Supplies is a UK based distributor. The company was founded by a dentist in Scotland with a focus on providing high quality dental chairs at affordable prices and is now gradually increasing its range to include a variety of dental products such as diamond burs, endo files, digital x-rays, orthodontic products, 3D printers and more.

Would you pay over £17000 for a dental chair unit, when you could get a different high quality and fully equipped dental chair shipped and installed in your practice from £7800? Including 5yrs warranty and engineer services?

Or how about diamond burs or endodontic products for 50% less?

Or are you interested in digital dentistry? We are suppliers of the world's fastest dental 3D printers made by Uniz.

After receiving training at the Graphy headquarters in South Korea, Al-Mahdi Dental Supplies set up an orthodontic lab in Edinburgh city centre - in cooperation with Holyrood Dental Care - and became the first supplier of Direct Printed Shape Memory Aligners in the UK!

We are the UK's first distribution centre for Dentinova, one of Africa's and the Middle East's fastest growing dental laboratories. Trusted by over 100 facilities in more than six countries. It has a dedicated team of more than 80 hand-picked, highly qualified consultants & experienced designers covering all dental subspecialties. Providing dental designs, milling & 3D printing services 24/7/365.

Currently processing more than 15,000 designs each month while maintaining fast delivery time, less than 24 hours for designs, and 7 - 9 days for milling and 3d printing.

Send us your scans or impressions, we will deliver the lab work.

Feel free to contact us by email, phone or WhatsApp to find out more!

We would be delighted to hear from you!
